36th day in the Hole
6th day of unlawful detainer
by Warren Garcia

Hey Babe,

Late last night I was finally given your letter post marked 7/4, after asking a CO to look for it. The Order of Robert Larsen is yet another example of his total disregard for the law. Of course I am not allowed to petition the court in violation of the 1st Amendment and we know Anita Burns is not acting in my defense, she is a puppet of the prosecution.

I believe Robert Larsen has become serial and delusional. Believing he is not required to provide due process of law in accordance with the 5th Amendment. Of course the whole case is based upon fraud, with a rubber stamped indictment now soon a rubber stamped mental incompetency determination. Based upon others knowledge Jeremiah Dwyer is the Judges' hatchet man, anyone a Judge wants incompetent Dwyer determines them incompetent. Regardless of what the true competency of the individual may be.

Of course the Orders of Robert Larsen are all Fraud, claiming I am at a "Federal Medical Center" when in fact I am in a "Federal Correctional Institution" and the "Federal Detention Center" of Englewood Colorado. There is no medical center here, just a quack who is allowed to determine people incompetent without any tests, evidence or interviews. This is a complete "Rail Road" job of The Conspirators, all working together

to establish my guilt. Regardless I am going to charge Anita Barnes with "Ineffective Assistance of Counsel". All of her actions have been to aid the prosecution to throw me in prison and keep me there. She was provided copies and refused to argue my defense. I am going to demand a Common Law Counsel, One not a member of the BAR.

As of 7/23 I will have served 74 days in prison 1/2 of that in the hole. Their corruption is clear for all to see seize an American, throw them in prison, persecute, torture and terrorize them into submission, determine them incompetent and conduct a mock trial devoid of all facts, law and evidence, by foreign agents to obtain a conviction and send the American to prison for the rest of his natural born life. Unless we can stop this system of "prosecutorial misconduct" I won't ever be home again. How we can stop this corruption is beyond my scope of knowledge. Perhaps this letter should be put on the website and ask others for their advice on how to solve this problem. As I see it we are dealing with a rogue judge operating a rogue court and refusing all facts, law and evidence. I have reserved all rights under UCC1-308/1-207 and demanded my remedy under the "15 statutes at large". HC to the Court of Appeals might be the ticket, I don't know. All I know is I trust you have to do all that you can and love you for all you have done. Regardless of the outcome I know in my heart you did your best. As usual you are in my heart and on my mind, I love you and miss you very much,

Perhaps affidavits stating the incompetency of Larsen to US Court of Appeals.

Love You Always
and forever

Denny
